Chinese American Voices Aug 17 2021 Offering a textured history of the Chinese in America since their arrival during the California Gold Rush, this work includes letters, speeches, testimonies, oral histories, personal memoirs, poems, essays, and folksongs. It provides an insight into immigration, work, family and social life, and the longstanding fight for equality and inclusion.

The Twentieth-Century American City Jul 16 2021 The second edition of this highly acclaimed book brings the story of urban America upto date through the early 1990s, with an analysis of recent attempts to revive aging central cities and a look at a new form of development known as technoburbs or edge cities.

A Different Mirror for Young People Jan 02 2023 A longtime professor of Ethnic Studies at the University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of *A Different Mirror* was published in 1993, Publishers Weekly called it "a brilliant revisionist history of America that is likely to become a classic of multicultural studies" and named it one of the ten best books of the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling *A People's History of the United States* for younger readers, turns the updated 2008 edition of Takaki's multicultural masterwork into *A Different Mirror for Young People*. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, *A Different Mirror for Young People* brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn's *A People's History*, Takaki's *A Different Mirror* offers a rich and rewarding "people's view" perspective on the American story.

Uneven Roads Sep 05 2020 *Uneven Roads* helps you grasp how, when, and why race and ethnicity matter in U.S. politics. Using the metaphor of a road, with twists, turns, and dead ends, this incisive text takes you on a journey to understanding political racialization and the roots of modern interpretations of race and ethnicity. The book's structure and narrative are designed to encourage comparison and reflection. You will critically analyze the history and context of U.S. racial and ethnic politics to build the skills needed to draw your own conclusions. In the Second Edition of this groundbreaking text, authors Shaw, DeSipio, Pinderhughes, and Travis bring the historical narrative to life by addressing the most contemporary debates and challenges affecting U.S. racial and ethnic politics. You will explore important issues regarding voting rights, political representation, education and criminal justice policies, and the immigrant experience. A revised final chapter on intersectionality encourages you to examine how groups go beyond the boundaries of race and ethnicity to come together on matters of class, gender, and sexuality.

Beyond the Shadow of Camptown Dec 29 2019 Through moving oral histories, Ji-Yeon Yuh tells an important, at times heartbreaking, story of Korean military brides. She takes us beyond the stereotypes and reveals their roles within their families, communities, and Korean immigration to the U.S.

A Companion to Asian American Studies Jun 14 2021 *A Companion to Asian American Studies* is

comprised of 20 previously published essays that have played an important historical role in the conceptualization of Asian American studies as a field. Essays are drawn from international publications, from the 1970s to the present. Includes coverage of psychology, history, literature, feminism, sexuality, identity politics, cyberspace, pop culture, queerness, hybridity, and diasporic consciousness. Features a useful introduction by the editor reviewing the selections, and outlining future possibilities for the field. Can be used alongside *Asian American Studies After Critical Mass*, edited by Kent A. Ono, for a complete reference to Asian American Studies.

Unequal Freedom Sep 17 2021 The inequalities that persist in America have deep historical roots. Evelyn Nakano Glenn untangles this complex history in a unique comparative regional study from the end of Reconstruction to the eve of World War II. During this era the country experienced enormous social and economic changes with the abolition of slavery, rapid territorial expansion, and massive immigration, and struggled over the meaning of free labor and the essence of citizenship as people who previously had been excluded sought the promise of economic freedom and full political rights. After a lucid overview of the concepts of the free worker and the independent citizen at the national level, Glenn vividly details how race and gender issues framed the struggle over labor and citizenship rights at the local level between blacks and whites in the South, Mexicans and Anglos in the Southwest, and Asians and haoles (the white planter class) in Hawaii. She illuminates the complex interplay of local and national forces in American society and provides a dynamic view of how labor and citizenship were defined, enforced, and contested in a formative era for white-nonwhite relations in America.

The Culture Map (INTL ED) Aug 05 2020 An international business expert helps you understand and navigate cultural differences in this insightful and practical guide, perfect for both your work and personal life. Americans precede anything negative with three nice comments; French, Dutch, Israelis, and Germans get straight to the point; Latin Americans and Asians are steeped in hierarchy; Scandinavians think the best boss is just one of the crowd. It's no surprise that when they try and talk to each other, chaos breaks out. In *The Culture Map*, INSEAD professor Erin Meyer is your guide through this subtle, sometimes treacherous terrain in which people from starkly different backgrounds are expected to work harmoniously together. She provides a field-tested model for decoding how cultural differences impact international business, and combines a smart analytical framework with practical, actionable advice.

The Making of Asian America Aug 29 2022 "In the past fifty years, Asian Americans have helped change the face of America and are now the fastest growing group in the United States. But as ... historian Erika Lee reminds us, Asian Americans also have deep roots in the country. *The Making of Asian America* tells the little-known history of Asian Americans and their role in American life, from the arrival of the first Asians in the Americas to the present-day. An epic history of global journeys and new beginnings, this book shows how generations of Asian immigrants and their American-born descendants have made and remade Asian American life in the United States: sailors who came on the first trans-Pacific ships in the 1500s to the Japanese Americans incarcerated during World War II. Over the past fifty years, a new Asian America has emerged out of community activism and the arrival of new immigrants and refugees. No longer a "despised minority," Asian Americans are now held up as America's "model minorities" in ways that reveal the complicated role that race still plays in the United States. Published to commemorate the fiftieth anniversary of the passage of the United States' Immigration and Nationality Act of 1965 that has remade our "nation of immigrants," this is a new and definitive history of Asian Americans. But more than that, it is a new way of understanding America itself, its complicated histories of race and immigration, and its place in the world today"--Jacket.

A Young People's History of the United States Jan 22 2022 *A Young People's History of the United States* brings to US history the viewpoints of workers, slaves, immigrants, women, Native Americans, and others whose stories, and their impact, are rarely included in books for young people. *A Young People's History of the United States* is also a companion volume to *The People Speak*, the film adapted from *A People's History of the United States* and *Voices of a People's History of the United States*. Beginning with a look at Christopher Columbus's arrival through the eyes of the Arawak Indians, then leading the reader through the struggles for workers' rights, women's rights, and civil rights during the nineteenth and twentieth centuries, and ending with the current protests against continued American imperialism, Zinn in the volumes of *A Young People's History of the United States* presents a radical new way of understanding America's history. In so doing, he reminds readers that America's true greatness is shaped by our dissident voices, not our

military generals.

The Racial Contract Apr 12 2021 The Racial Contract puts classic Western social contract theory, deadpan, to extraordinary radical use. With a sweeping look at the European expansionism and racism of the last five hundred years, Charles W. Mills demonstrates how this peculiar and unacknowledged "contract" has shaped a system of global European domination: how it brings into existence "whites" and "non-whites," full persons and sub-persons, how it influences white moral theory and moral psychology; and how this system is imposed on non-whites through ideological conditioning and violence. The Racial Contract argues that the society we live in is a continuing white supremacist state. As this 25th anniversary edition—featuring a foreword by Tommy Shelbie and a new preface by the author—makes clear, the still-urgent The Racial Contract continues to inspire, provoke, and influence thinking about the intersection of the racist underpinnings of political philosophy.

Recovering History, Constructing Race Jan 10 2021 “An unprecedented tour de force . . . [A] sweeping historical overview and interpretation of the racial formation and racial history of Mexican Americans.” —Antonia I. Castañeda, Associate Professor of History, St. Mary’s University Winner, A Choice Outstanding Academic Book The history of Mexican Americans is a history of the intermingling of races—Indian, White, and Black. This racial history underlies a legacy of racial discrimination against Mexican Americans and their Mexican ancestors that stretches from the Spanish conquest to current battles over ending affirmative action and other assistance programs for ethnic minorities. Asserting the centrality of race in Mexican American history, Martha Menchaca here offers the first interpretive racial history of Mexican Americans, focusing on racial foundations and race relations from preHispanic times to the present. Menchaca uses the concept of racialization to describe the process through which Spanish, Mexican, and U.S. authorities constructed racial status hierarchies that marginalized Mexicans of color and restricted their rights of land ownership. She traces this process from the Spanish colonial period and the introduction of slavery through racial laws affecting Mexican Americans into the late twentieth-century. This re-viewing of familiar history through the lens of race recovers Blacks as important historical actors, links Indians and the mission system in the Southwest to the Mexican American present, and reveals the legal and illegal means by which Mexican Americans lost their land grants. “Martha Menchaca has begun an intellectual insurrection by challenging the pristine aboriginal origins of Mexican Americans as historically inaccurate . . . Menchaca revisits the process of racial formation in the northern part of Greater Mexico from the Spanish conquest to the present.” —Hispanic American Historical Review

5 Centimeters per Second Aug 24 2019 Love can move at the speed of terminal velocity, but as award-winning director Makoto Shinkai reveals in his latest comic, it can only be shared and embraced by those who refuse to see it stop. Takaki Tohno quickly befriends Akari Shinohara when she transfers to his school. They grow closer to each other due to similar interests and attitudes; for instance, they both prefer to stay inside during recess due to their constitutions. As a result, they form a strong bond. Upon ending their school year, Akari moves to Tochigi, due to her parents’ jobs. The two keep in contact by writing letters, but eventually begin to drift apart. SEE LESS

Two Faces of Exclusion Mar 24 2022 From the Chinese Exclusion Act of 1882 to the Immigration Act of 1924 to Japanese American internment during World War II, the United States has a long history of anti-Asian policies. But Lon Kurashige demonstrates that despite widespread racism, Asian exclusion was not the product of an ongoing national consensus; it was a subject of fierce debate. This book complicates the exclusion story by examining the organized and well-funded opposition to discrimination that involved some of the most powerful public figures in American politics, business, religion, and academia. In recovering this opposition, Kurashige explains the rise and fall of exclusionist policies through an unstable and protracted political rivalry that began in the 1850s with the coming of Asian immigrants, extended to the age of exclusion from the 1880s until the 1960s, and since then has shaped the memory of past discrimination. In this first book-length analysis of both sides of the debate, Kurashige argues that exclusion-era policies were more than just enactments of racism; they were also catalysts for U.S.-Asian cooperation and the basis for the twenty-first century's tightly integrated Pacific world.

Rethinking Ethnic Studies Mar 31 2020 As part of a growing nationwide movement to bring Ethnic Studies into K-12 classrooms, Rethinking Ethnic Studies brings together many of the leading teachers, activists, and scholars in this movement to offer examples of Ethnic Studies frameworks, classroom practices, and organizing at the school, district, and statewide levels. Built around core themes of indigeneity, colonization,

anti-racism, and activism, *Rethinking Ethnic Studies* offers vital resources for educators committed to the ongoing struggle for racial justice in our schools.

The Most Controversial Decision Nov 07 2020 This book explores the American use of atomic bombs and the role these weapons played in the defeat of the Japanese Empire in World War II. It focuses on President Harry S. Truman's decision-making regarding this most controversial of all his decisions. The book relies on notable archival research and the best and most recent scholarship on the subject to fashion an incisive overview that is fair and forceful in its judgments. This study addresses a subject that has been much debated among historians and it confronts head-on the highly disputed claim that the Truman administration practised 'atomic diplomacy'. The book goes beyond its central historical analysis to ask whether it was morally right for the United States to use these terrible weapons against Hiroshima and Nagasaki. It also provides a balanced evaluation of the relationship between atomic weapons and the origins of the Cold War.

Getting Real About Race May 02 2020 *Getting Real About Race* is an edited collection of short essays that address the most common stereotypes and misconceptions about race held by students, and by many in the United States, in general.

Hiroshima May 26 2022 The bombing of Hiroshima was one of the pivotal events of the twentieth century, yet this controversial question remains unresolved. At the time, General Dwight Eisenhower, General Douglas MacArthur, and chief of staff Admiral William Leahy all agreed that an atomic attack on Japanese cities was unnecessary. All of them believed that Japan had already been beaten and that the war would soon end. Was the bomb dropped to end the war more quickly? Or did it herald the start of the Cold War? In his probing new study, prizewinning historian Ronald Takaki explores these factors and more. He considers the cultural context of race - the ways in which stereotypes of the Japanese influenced public opinion and policymakers - and also probes the human dimension. Relying on top secret military reports, diaries, and personal letters, Takaki relates international policies to the individuals involved: Los Alamos director J. Robert Oppenheimer, Secretary of State James Byrnes, Secretary of War Henry L. Stimson, and others... but above all, Harry Truman.

The Heartbeat of Wounded Knee Mar 12 2021 FINALIST FOR THE 2019 NATIONAL BOOK AWARD
LONGLISTED FOR THE 2020 ANDREW CARNEGIE MEDAL FOR EXCELLENCE A NEW YORK
TIMES BESTSELLER Named a best book of 2019 by The New York Times, TIME, The Washington Post,
NPR, Hudson Booksellers, The New York Public Library, The Dallas Morning News, and Library Journal.
"Chapter after chapter, it's like one shattered myth after another." - NPR "An informed, moving and
kaleidoscopic portrait... Treuer's powerful book suggests the need for soul-searching about the meanings of
American history and the stories we tell ourselves about this nation's past.." - New York Times Book
Review, front page A sweeping history—and counter-narrative—of Native American life from the Wounded
Knee massacre to the present. The received idea of Native American history—as promulgated by books like
Dee Brown's mega-bestselling 1970 *Bury My Heart at Wounded Knee*—has been that American Indian
history essentially ended with the 1890 massacre at Wounded Knee. Not only did one hundred fifty Sioux die
at the hands of the U. S. Cavalry, the sense was, but Native civilization did as well. Growing up Ojibwe on a
reservation in Minnesota, training as an anthropologist, and researching Native life past and present for his
nonfiction and novels, David Treuer has uncovered a different narrative. Because they did not
disappear—and not despite but rather because of their intense struggles to preserve their language, their
traditions, their families, and their very existence—the story of American Indians since the end of the
nineteenth century to the present is one of unprecedented resourcefulness and reinvention. In *The Heartbeat
of Wounded Knee*, Treuer melds history with reportage and memoir. Tracing the tribes' distinctive cultures
from first contact, he explores how the depredations of each era spawned new modes of survival. The
devastating seizures of land gave rise to increasingly sophisticated legal and political maneuvering that put
the lie to the myth that Indians don't know or care about property. The forced assimilation of their children at
government-run boarding schools incubated a unifying Native identity. Conscription in the US military and
the pull of urban life brought Indians into the mainstream and modern times, even as it steered the emerging
shape of self-rule and spawned a new generation of resistance. *The Heartbeat of Wounded Knee* is the
essential, intimate story of a resilient people in a transformative era.

Integrations Nov 19 2021 "Education plays a central part in the history of racial inequality in America, with
people of color long advocating for equal educational rights and opportunities. Though school desegregation
initially was a boon for educational equality, schools began to resegregate in the 1980s, and schools are now

more segregated than ever. In *Integrations*, historian Zoë Burkholder and philosopher Lawrence Blum set out to shed needed light on the enduring problem of segregation in American schools. From a historical perspective, the authors analyze how ideas about race influenced the creation and development of American public schools. Importantly, the authors focus on multiple marginalized groups in American schooling: African Americans, Native Americans, Latinxs, and Asian Americans. In the second half of the book, the authors explore what equal education should and could look like. They argue for a conception of "educational goods" (including the development of moral and civic capacities) that should and can be provided to every child through schooling—including integration itself. Ultimately, the authors show that in order to grapple with integration in a meaningful way, we must think of integration in the plural, both in its multiple histories and the many possible meanings of and courses of action for integration"--

(Re)Imagining Elementary Social Studies Jan 28 2020 The field of elementary social studies is a specific space that has historically been granted unequal value in the larger arena of social studies education and research. This reader stands out as a collection of approaches aimed specifically at teaching controversial issues in elementary social studies. This reader challenges social studies education (i.e., classrooms, teacher education programs, and research) to engage controversial issues--those topics that are politically, religiously, or are otherwise ideologically charged and make people, especially teachers, uncomfortable--in profound ways at the elementary level. This reader, meant for elementary educators, preservice teachers, and social studies teacher educators, offers an innovative vision from a new generation of social studies teacher educators and researchers fighting against the forces of neoliberalism and the marginalization of our field. The reader is organized into three sections: 1) pushing the boundaries of how the field talks about elementary social studies, 2) elementary social studies teacher education, and 3) elementary social studies teaching and learning. Individual chapters either A) conceptually unpack a specific controversial issue (e.g. Islamophobia, Indian Boarding Schools, LGBT issues in schools) and how that issue should be/is incorporated in an elementary social studies methods courses and classrooms or B) present research on elementary preservice teachers or how elementary teachers and students engage controversial issues. This reader unpacks specific controversial issues for elementary social studies for readers to gain critical content knowledge, teaching tips, lesson ideas, and recommended resources. Endorsement: *(Re)Imagining Elementary Social Studies* is a timely and powerful collection that offers the best of what social studies education could and should be. Grounded in a politics of social justice, this book should be used in all elementary social studies methods courses and schools in order to develop the kinds of teachers the world needs today. -- Wayne Au, Professor, University of Washington Bothell, Editor, *Rethinking Schools*

Heart and Soul Feb 29 2020 The story of America and African Americans is a story of hope and inspiration and unwavering courage. In *Heart and Soul*, Kadir Nelson's stirring paintings and words grace 100-plus pages of a gorgeous picture book—a beautiful gift for readers of all ages, a treasure to share across generations at home or in the classroom. *Heart and Soul* is about the men, women, and children who toiled in the hot sun picking cotton; it's about the America ripped in two by Jim Crow laws; it's about the brothers and sisters of all colors who rallied against those who would dare bar a child from an education. It's a story of discrimination and broken promises, determination, and triumphs. Kadir Nelson's *Heart and Soul*—the winner of numerous awards, including the Coretta Scott King Author Award and Illustrator Honor, and the recipient of five starred reviews—is told through the unique point of view and intimate voice of a one-hundred-year-old African-American female narrator. This inspiring book demonstrates that in striving for freedom and equal rights, African Americans help our country on the journey toward its promise of liberty and justice—the true heart and soul of our nation.

Black Torch Oct 19 2021 Although he may appear rough-and-tumble, Jiro Azuma's compassionate side emerges when it comes to the furry critters he can communicate with. But Jiro's soft spot for animals gets him in major trouble when a suspicious stray cat fuses with him, granting him exceptional power but also dragging him into humanity's hidden battle against powerful Japanese spirits, mononoke. -- VIZ Media

Asian American Dreams Dec 21 2021 An account of the emergence of the Asian American consciousness in the United States explores the history that led to disparate groups of Asians seeing themselves as a single, cohesive ethnic community with political power.

Cane Fires Apr 24 2022 Outstanding Book in History and Social Science Award, Association for Asian American Studies, 1992 "Okiihiro's account is an important corrective to our understanding of the Japanese American Experience in World War II." --The Hawaiian Journal of History Challenging the prevailing view

of Hawaii as a mythical "racial paradise," Gary Okihiro presents this history of a systematic anti-Japanese movement in the islands from the time migrant workers were brought to the sugar cane fields until the end of World War II. He demonstrates that the racial discrimination against Japanese Americans that occurred on the West Coast during the second World War closely paralleled the less familiar oppression of Hawaii's Japanese, which evolved from the production needs of the sugar planters to the military's concern over the "menace of alien domination." Okihiro convincingly argues that those concerns motivated the consolidation of the plantation owners, the Territorial government, and the U.S. military-Hawaii's elite-into a single force that propelled the anti-Japanese movement, while the military devised secret plans for martial law and the removal and detention of Japanese Americans in Hawaii two decades before World War II. Excerpt Read an excerpt from Chapter 1 (pdf). Reviews "Scholars of American race relations will want to read this book. So will anyone interested in Hawaii's history or in the experiences of Japanese or Asian Americans. It will go far in putting to rest any residual notion that the WWII experiences of the Japanese Americans represented 'aberration' or 'hysterical' reaction to wartime exigencies." --Franklin S. Intimate Frontiers Nov 27 2019 This book reveals how powerful undercurrents of sex, gender, and culture helped shape the history of the American frontier from the 1760s to the 1850s. Looking at California under three flags--those of Spain, Mexico, and the United States--Hurtado resurrects daily life in the missions, at mining camps, on overland trails and sea journeys, and in San Francisco. In these settings Hurtado explores courtship, marriage, reproduction, and family life as a way to understand how men and women--whether Native American, Anglo American, Hispanic, Chinese, or of mixed blood--fit into or reshaped the roles and identities set by their race and gender. Hurtado introduces two themes in delineating his intimate frontiers. One was a libertine California, and some of its delights were heartily described early in the 1850s: "[Gold] dust was plentier than pleasure, pleasure more enticing than virtue. Fortune was the horse, youth in the saddle, dissipation the track, and desire the spur." Not all the times were good or giddy, and in the tragedy of a teenage domestic who died in a botched abortion or a brutalized Indian woman we see the seamy underside of gender relations on the frontier. The other theme explored is the reaction of citizens who abhorred the loss of moral standards and sought to suppress excess. Their efforts included imposing all the stabilizing customs of whichever society dominated California--during the Hispanic period, arranged marriages and concern for family honor were the norm; among the Anglos, laws regulated prostitution, missionaries railed against vices, and "proper" women were brought in to help "civilize" the frontier.

A Different Mirror Oct 31 2022 Takaki traces the economic and political history of Indians, African Americans, Mexicans, Japanese, Chinese, Irish, and Jewish people in America, with considerable attention given to instances and consequences of racism. The narrative is laced with short quotations, cameos of personal experiences, and excerpts from folk music and literature. Well-known occurrences, such as the Triangle Shirtwaist Factory Fire, the Trail of Tears, the Harlem Renaissance, and the Japanese internment are included. Students may be surprised by some of the revelations, but will recognize a constant thread of rampant racism. The author concludes with a summary of today's changing economic climate and offers Rodney King's challenge to all of us to try to get along. Readers will find this overview to be an accessible, cogent jumping-off place for American history and political science plus a guide to the myriad other sources identified in the notes.

Asian Americans Oct 07 2020 Traces the history of Asian immigration from the California gold rush to Vietnamese boat people, describes patterns of work, social adaptation, and family formation, and explains how they coped with discrimination

The Wages of Whiteness Jul 28 2022 Combining classical Marxism, psychoanalysis, and the new labor history pioneered by E. P. Thompson and Herbert Gutman, David Roediger's widely acclaimed book provides an original study of the formative years of working-class racism in the United States. This, he argues, cannot be explained simply with reference to economic advantage; rather, white working-class racism is underpinned by a complex series of psychological and ideological mechanisms that reinforce racial

stereotypes, and thus help to forge the identities of white workers in opposition to Blacks.

Racial Fault Lines May 14 2021 "An excellent summary and interpretation of race relations in nineteenth-century California. Empirically rich and theoretically sophisticated, it is the last and best word on the historical origins of the racial hierarchy that contemporary multiculturalists are struggling to overcome."--George Fredrickson, Stanford University "Sometime soon in the 21st century, all of California's peoples will belong to minorities, and Almaguer's pathbreaking comparative history is indispensable for understanding how and why this society became so racially diverse. His study expands the borders of multicultural scholarship."--Ronald Takaki, University of California, Berkeley "Evocatively written and theoretically compelling, "Racial Fault Lines represents a benchmark in the writing of U.S. history. Almaguer blends sociological paradigms with rich historical narratives in his perspicacious examination of racial and class formation among nineteenth-century Californians. Me

The Global Practice of Forensic Science Feb 20 2022 The Global Practice of Forensic Science presents histories, issues, patterns, and diversity in the applications of international forensic science. Written by 64 experienced and internationally recognized forensic scientists, the volume documents the practice of forensic science in 28 countries from Africa, the Americas, Asia, Australia and Europe. Each country's chapter explores factors of political history, academic linkages, the influence of individual cases, facility development, types of cases examined, integration within forensic science, recruitment, training, funding, certification, accreditation, quality control, technology, disaster preparedness, legal issues, research and future directions. Aimed at all scholars interested in international forensic science, the volume provides detail on the diverse fields within forensic science and their applications around the world.

A Larger Memory Jun 26 2022 A sweeping yet intimate history of the diverse individuals who, together, make up America. Ronald Takaki uses letters, diaries & oral histories to share their stories. Workers, immigrants, shopkeepers, women, children & others, their lives often separated by ethnic borders, speak side by side as Takaki frames their voices with his own text.

American Ethnic History Jul 04 2020 This book provides a new framework for examining and comprehending the varied historical experiences of ethnic groups in the United States. Thematically organized and comparative in outlook, it explores how historians have grappled with questions that bear upon a key aspect of the American experience: ethnicity. How did the United States come to have such an ethnically diverse population? What contribution, if any, has this ethnic diversity made to the shaping of American culture and institutions? How easily and at what levels have ethnic and racial minorities been incorporated, if at all, into the social and economic structures of the United States? Has incorporation been a uniform process or has it varied from group to group? As well as providing readers with an accessible yet authoritative introduction to the field of American ethnic history, the book serves as a valuable reference tool for more experienced researchers. Key Features: *Adopts a comparative and thematic approach that helps to demystify this complex and controversial subject. *Provides an orderly and readable introduction to the main issues and debates surrounding the topic. *Detailed and broad-ranging discussion of historiography enables readers to find more specialized works on topics in which they are interested.

Strangers from a Different Shore Dec 01 2022 In an extraordinary blend of narrative history, personal recollection, & oral testimony, the author presents a sweeping history of Asian Americans. He writes of the

Chinese who laid tracks for the transcontinental railroad, of plantation laborers in the canefields of Hawaii, of "picture brides" marrying strangers in the hope of becoming part of the American dream. He tells stories of Japanese Americans behind the barbed wire of U.S. internment camps during World War II, Hmong refugees tragically unable to adjust to Wisconsin's alien climate & culture, & Asian American students stigmatized by the stereotype of the "model minority." This is a powerful & moving work that will resonate for all Americans, who together make up a nation of immigrants from other shores.

Decolonizing Pathways towards Integrative Healing in Social Work Oct 26 2019 Taking a new and innovative angle on social work, this book seeks to remedy the lack of holistic perspectives currently used in Western social work practice by exploring Indigenous and other culturally diverse understandings and experiences of healing. This book examines six core areas of healing through a holistic lens that is grounded in a decolonizing perspective. Situating integrative healing within social work education and theory, the book takes an interdisciplinary approach, drawing from social memory and historical trauma, contemplative traditions, storytelling, healing literatures, integrative health, and the traditional environmental knowledge of Indigenous Peoples. In exploring issues of water, creative expression, movement, contemplation, animals, and the natural world in relation to social work practice, the book will appeal to all scholars, practitioners, and community members interested in decolonization and Indigenous studies.
