

Access Free Guided Reading A Conservative Tide Answers For Chapter 25 Section 4 Pdf For Free

Reading Republican Oratory Nov 27 2019 Public speech was a key aspect of politics in Republican Rome, yet the partial nature of the available evidence means that our understanding of its workings is dominated by one man: Cicero. This volume explores the oratory of the Roman Republic as practiced by individuals other than Cicero, focusing on the surviving fragments of such oratory.

Conscience of a Conservative Apr 24 2022 Conscience of a Conservative written by legendary author Barry Goldwater is widely considered to be one of the top 100 greatest books of all time. This great classic will surely attract a whole new generation of readers. For many, Conscience of a Conservative is required reading for various courses and curriculums. And for others who simply enjoy reading timeless pieces of classic literature, this gem by Barry Goldwater is highly recommended. Published by Classic House Books and beautifully produced, Conscience of a Conservative would make an ideal gift and it should be a part of everyone's personal library.

The Conservative Sensibility Jun 26 2022 The Pulitzer Prize-winning columnist's "astonishing" and "enthraling" New York Times bestseller and Notable Book about how the Founders' belief in natural rights created a great American political tradition (Booklist) -- "easily one of the best books on American Conservatism ever written" (Jonah Goldberg). For more than four decades, George F. Will has attempted to discern the principles of the Western political tradition and apply them to America's civic life. Today, the stakes could hardly be higher. Vital questions about the nature of man, of rights, of equality, of majority rule are bubbling just beneath the surface of daily events in America. The Founders' vision, articulated first in the Declaration of Independence and carried out in the Constitution, gave the new republic a framework for government unique in world history. Their beliefs in natural rights, limited government, religious freedom, and in human virtue and dignity ushered in two centuries of American prosperity. Now, as Will shows, conservatism is under threat -- both from progressives and elements inside the Republican Party. America has become an administrative state, while destructive trends have overtaken family life and higher education. Semi-autonomous executive agencies wield essentially unaccountable power. Congress has failed in its duty to exercise its legislative powers. And the executive branch has slipped the Constitution's leash. In the intellectual battle between the vision of Founding Fathers like James Madison, who advanced the notion of natural rights that pre-exist government, and the progressivism advanced by Woodrow Wilson, the Founders have been losing. It's time to reverse America's political fortunes. Expansive, intellectually thrilling, and written with the erudite wit that has made Will beloved by millions of readers, *The Conservative Sensibility* is an extraordinary new book from one of America's most celebrated political writers.

Dark Money Aug 17 2021 NATIONAL BESTSELLER ONE OF THE NEW YORK TIMES 10 BEST BOOKS OF THE YEAR Who are the immensely wealthy right-wing ideologues shaping the fate of America today? From the bestselling author of *The Dark Side*, an electrifying work of investigative journalism that uncovers the agenda of this powerful group. In her new preface, Jane Mayer discusses the results of the most recent election and Donald Trump's victory, and how, despite much discussion to the contrary, this was a huge victory for the billionaires who have been pouring money in the American political system. Why is America living in an age of profound and widening economic inequality? Why have even modest attempts to address climate change been defeated again and again? Why do hedge-fund billionaires pay a far lower tax rate than middle-class workers? In a riveting and indelible feat of reporting, Jane Mayer illuminates the history of an elite cadre of plutocrats—headed by the Kochs, the Scaifes, the Olins, and the Bradleys—who have bankrolled a systematic plan to fundamentally alter the American political system. Mayer traces a byzantine trail of billions of dollars spent by the network, revealing a staggering conglomeration of think tanks, academic institutions, media groups, courthouses, and government allies that have fallen under their sphere of influence. Drawing from hundreds of exclusive interviews, as well as extensive scrutiny of public records, private papers, and court proceedings, Mayer provides vivid portraits of the secretive figures behind the new American oligarchy and a searing look at the carefully concealed agendas steering the nation. *Dark Money* is an essential book for anyone who cares about the future of American democracy. National Book Critics Circle Award Finalist LA Times Book Prize Finalist PEN/Jean Stein Book Award Finalist Shortlisted for the Lukas Prize

The Righteous Mind Jan 22 2022 NEW YORK TIMES BESTSELLER • The acclaimed social psychologist challenges conventional thinking about morality, politics, and religion in a way that speaks to conservatives and liberals alike—a “landmark contribution to humanity’s understanding of itself” (The New York Times Book Review). Drawing on his twenty-five years of groundbreaking research on moral psychology, Jonathan Haidt shows how moral judgments arise not from reason but from gut feelings. He shows why liberals, conservatives, and libertarians have such different intuitions about right and wrong, and he shows why each side is actually right about many of its central concerns. In this subtle yet accessible book, Haidt gives you the key to understanding the miracle of human cooperation, as well as the curse of our eternal divisions and conflicts. If you’re ready to trade in anger for understanding, read *The Righteous Mind*.

The Rise of the Conservative Legal Movement: The Battle for Control of the Law Mar 12 2021 Starting in the 1970s, conservatives learned that electoral victory did not easily convert into a reversal of important liberal accomplishments, especially in the law. As a result, conservatives' mobilizing efforts increasingly turned to law schools, professional networks, public interest groups, and the judiciary--areas traditionally controlled by liberals. Drawing from internal documents, as well as interviews with key conservative figures, *The Rise of the Conservative Legal Movement*

examines this sometimes fitful, and still only partially successful, conservative challenge to liberal domination of the law and American legal institutions. Unlike accounts that depict the conservatives as fiendishly skilled, *The Rise of the Conservative Legal Movement* reveals the formidable challenges that conservatives faced in competing with legal liberalism. Steven Teles explores how conservative mobilization was shaped by the legal profession, the legacy of the liberal movement, and the difficulties in matching strategic opportunities with effective organizational responses. He explains how foundations and groups promoting conservative ideas built a network designed to dislodge legal liberalism from American elite institutions. And he portrays the reality, not of a grand strategy masterfully pursued, but of individuals and political entrepreneurs learning from trial and error. Using previously unavailable materials from the Olin Foundation, Federalist Society, Center for Individual Rights, Institute for Justice, and Law and Economics Center, *The Rise of the Conservative Legal Movement* provides an unprecedented look at the inner life of the conservative movement. Lawyers, historians, sociologists, political scientists, and activists seeking to learn from the conservative experience in the law will find it compelling reading.

Who Really Cares Feb 08 2021 We all know we should give to charity, but who really does? In his controversial study of America's giving habits, Arthur C. Brooks shatters stereotypes about charity in America—including the myth that the political Left is more compassionate than the Right. Brooks, a preeminent public policy expert, spent years researching giving trends in America, and even he was surprised by what he found. In *Who Really Cares*, he identifies the forces behind American charity: strong families, church attendance, earning one's own income (as opposed to receiving welfare), and the belief that individuals—not government—offer the best solution to social ills. But beyond just showing us who the givers and non-givers in America really are today, Brooks shows that giving is crucial to our economic prosperity, as well as to our happiness, health, and our ability to govern ourselves as a free people.

A Conservative Walks Into a Bar Jul 04 2020 Conservative critics argue that modern political satire, in the age of *The Daily Show*, has a liberal bias. A quick review of the humor landscape shows that there are very few conservative political satirists, and using personal interviews with political humorists this book explains why. The book explores the history of satire, the comedy profession, and the nature of satire itself to examine why there is an ideological imbalance in political humor and it explores the consequences of this disparity. This book will appeal to *Daily Show* and Colbert fans, political junkies, and anyone interested in the intersection of politics and media.

Republican Jesus May 02 2020 The complete guide to debunking right-wing misinterpretations of the Bible—from economics and immigration to gender and sexuality. Jesus loves borders, guns, unborn babies, and economic prosperity and hates homosexuality, taxes, welfare, and universal healthcare—or so say many Republican politicians, pundits, and preachers. Through outrageous misreadings of the New Testament gospels that started almost a century ago, conservative influencers have conjured a version of Jesus that speaks to their fears, desires, and resentments. In *Republican Jesus*, Tony Keddie explains not only where this right-wing Christ came from and what he stands for but also why this version of Jesus is a fraud. By restoring Republicans' cherry-picked gospel texts to their original literary and historical contexts, Keddie dismantles the biblical basis for Republican positions on hot-button issues like Big Government, taxation, abortion, immigration, and climate change. At the same time, he introduces readers to an ancient Jesus whose life experiences and ethics were totally unlike those of modern Americans, conservatives and liberals alike.

Phyllis Schlafly and Grassroots Conservatism Jun 14 2021 Considered by many as "the" symbol of the conservative movement in America, Schlafly is profiled in this provocative new book that sheds new light on her life and the role her grassroots activism played in transforming America's political landscape.

33 Snowfish Oct 19 2021 "Adam Rapp's brilliant and haunting story will break your heart. But then his words will mend it. . . . Absolutely unforgettable." – Michael Cart On the run in a stolen car with a kidnapped baby in tow, Custis, Curl, and Boobie are three young people with deeply troubled pasts and bleak futures. As they struggle to find a new life for themselves, it becomes painfully clear that none of them will ever be able to leave the past behind. Yet for one, redemption is waiting in the unlikelyst of places. With the raw language of the street and lyrical, stream-of-consciousness prose, Adam Rapp hurtles the reader into a world of lost children, a world that is not for the faint of heart. Gripping, disturbing, and starkly illuminating, his hypnotic narration captures the voices of two damaged souls - a third speaks only through drawings - to tell a story of alienation, deprivation, and ultimately, the saving power of compassion.

The Rise of the Conservative Legal Movement Apr 12 2021 Starting in the 1970s, conservatives learned that electoral victory did not easily convert into a reversal of important liberal accomplishments, especially in the law. As a result, conservatives' mobilizing efforts increasingly turned to law schools, professional networks, public interest groups, and the judiciary--areas traditionally controlled by liberals. Drawing from internal documents, as well as interviews with key conservative figures, *The Rise of the Conservative Legal Movement* examines this sometimes fitful, and still only partially successful, conservative challenge to liberal domination of the law and American legal institutions. Unlike accounts that depict the conservatives as fiendishly skilled, *The Rise of the Conservative Legal Movement* reveals the formidable challenges that conservatives faced in competing with legal liberalism. Steven Teles explores how conservative mobilization was shaped by the legal profession, the legacy of the liberal movement, and the difficulties in matching strategic opportunities with effective organizational responses. He explains how foundations and groups promoting conservative ideas built a network designed to dislodge legal liberalism from American elite institutions. And he portrays the reality, not of a grand strategy masterfully pursued, but of individuals and political entrepreneurs learning from trial and error. Using previously unavailable materials from the Olin Foundation, Federalist Society, Center for Individual Rights, Institute for Justice, and Law and Economics Center, *The Rise of the Conservative Legal Movement* provides an unprecedented look at the inner life of the conservative movement. Lawyers, historians, sociologists, political scientists, and activists seeking to learn from the conservative experience in the law will find it compelling reading.

Reading and Writing for Civic Literacy Oct 07 2020 This brief edition of a groundbreaking textbook addresses the need for college students to develop critical reading, writing, and thinking skills for self-defense in the contentious arena of American civic rhetoric. Designed for first-year or more advanced composition and critical thinking courses, it is one-third shorter than the original edition, more affordable for students, and easier for teachers to cover in a semester or quarter. It incorporates up-to-date new readings and analysis of controversies like the growing inequality of wealth in America and the debates in the 2008 presidential campaign, expressed in opposing viewpoints from the political left and right. Exercises help students understand the ideological positions

and rhetorical patterns that underlie such opposing views. Widely debated issues of whether objectivity is possible and whether there is a liberal or conservative bias in news and entertainment media, as well as in education itself, are foregrounded as topics for rhetorical analysis.

Debating the American Conservative Movement Feb 20 2022 Debating the American Conservative Movement chronicles one of the most dramatic stories of modern American political history. The authors describe how a small band of conservatives in the immediate aftermath of World War II launched a revolution that shifted American politics to the right, challenged the New Deal order, transformed the Republican Party into a voice of conservatism, and set the terms of debate in American politics as the country entered the new millennium. Historians Donald T. Critchlow and Nancy MacLean frame two opposing perspectives of how the history of conservatism in modern America can be understood, but readers are encouraged to reach their own conclusions through reading engaging primary documents. Book jacket.

Selfish Libertarians and Socialist Conservatives? Sep 25 2019 In *Selfish Libertarians and Socialist Conservatives?*, Nathan W. Schlueter and Nikolai G. Wenzel present a lively debate over the essential questions that divide two competing political philosophies. Wenzel—a libertarian who believes the state should be restricted to protecting life, liberty, and property—and Schlueter—a conservative who thinks the state has a larger role to play in protecting public welfare, safety, and morals—explore the fundamental similarities and differences between their respective positions. Over a series of point-counterpoint chapters, they lay out the essential tenets of their own stances, critiquing the other. This engaging dialogue introduces readers to the foundations of each political philosophy. To vividly illustrate the diverging principles underlying conservatism and libertarianism, the authors explore three different hot-button case studies: marriage, immigration, and education. Compact, accessible, and complete with suggestions for further reading, *Selfish Libertarians and Socialist Conservatives?* is an ideal teaching tool that places these two political perspectives in fruitful dialogue with one another.

The Right Sep 29 2022 A magisterial intellectual history of the last century of American conservatism When most people think of the history of modern conservatism, they think of Ronald Reagan. Yet this narrow view leaves many to question: How did Donald Trump win the presidency? And what is the future of the Republican Party? In *The Right*, Matthew Continetti gives a sweeping account of movement conservatism's evolution, from the Progressive Era through the present. He tells the story of how conservatism began as networks of intellectuals, developing and institutionalizing a vision that grew over time, until they began to buckle under new pressures, resembling national populist movements. Drawing out the tensions between the desire for mainstream acceptance and the pull of extremism, Continetti argues that the more one studies conservatism's past, the more one becomes convinced of its future. Deeply researched and brilliantly told, *The Right* is essential reading for anyone looking to understand American conservatism.

Jonathan Swift as a Conservative Trimmer Aug 29 2022

The Conservative Heart Aug 05 2020 Arthur C. Brooks, one of the country's leading policy experts and the president of the American Enterprise Institute, offers a bold new vision for conservatism as a movement for happiness, unity, and social justice—a movement of the head and heart that boldly challenges the liberal monopoly on “fairness” and “compassion.” Drawing on years of research, Brooks presents a social justice agenda for a New Right—an inclusive, optimistic movement with a positive agenda to fight poverty, promote equal opportunity, extol spiritual enlightenment, and help everyone lead happier and more fulfilling lives. Firmly grounded in the four “institutions of meaning”—family, faith, community, and meaningful work—it is a call for a government safety net that actually lifts people up and offers a vision of true hope through earned success. Clear, well-reasoned, accessible, and free of vituperative politics, *The Conservative Heart* is a welcome strategy for conservatives looking for fresh, actionable ideas—and for politically independent citizens who believe that neither side is adequately addressing their needs or concerns.

Reading Mixed Signals Dec 09 2020 The public policy overviews by Brookings are always among the best, and they are even more valuable this year when several think tanks appear to have defaulted on their traditional role in offering up reviews for consideration by the transition team. Across the various issue areas, including international, social, domestic, and governance policy domains, they present thoughtful recommendations.

Reading Foucault as a Conservative Jul 28 2022

For Such a Time as This Jul 16 2021 Kayleigh McEnany describes her path to the White House podium, bringing the reader behind the scenes in the world's most powerful building and illuminating how faith got her through. If you would have told me that in the year 2020 I would stand at the White House podium and communicate with the American people as COVID-19 ravaged the globe and violent protests beset the nation, I would have told you that you were crazy. But Jesus Christ had this very plan for my life. From White House intern to White House press secretary, from production assistant to national television host, from Catholic all-girls high school to Harvard Law School, God has guided my path through uncharted territory. In *For Such a Time as This*, I will chronicle my journey to the White House and offer never-before-told anecdotes about what really happened within the Trump administration. You will experience some of the most high stakes moments in the West Wing right alongside me as I reveal how faith got me through.

Summary: Talking Right Mar 31 2020 The must-read summary of Geoffrey Nunberg's book “Talking Right: How Conservatives Turned Liberalism into a Tax-Raising, Latte-Drinking, Sushi-Eating, Volvo-Driving, New York Times-Reading, Body-Piercing, Hollywood-Loving, Left-Wing Freak Show”. This complete summary of “Talking Right” by Geoffrey Nunberg, a renowned linguist, researcher and professor, presents the author's discussion of how language plays an important role in political conversation, and how Republicans have harnessed it by changing the meaning of words such as “liberal”, “values” and “freedom”. He argues that we cannot help but use language that embodies conservatism when we discuss politics, and that the Democratic Party could win back favour by redefining these words with new meanings and stereotypes. Added-value of this summary: • Save time • Understand how the political language we use is skewed by external factors • Expand your knowledge of American politics and society To learn more, read “Talking Right” and discover how the Democratic Party might be able to win back favour by shifting the political language we use from the right back towards their own ideas.

Red State Uprising Jan 28 2020 Asserting that the Obama administration's policies flirt dangerously with socialism, the authors offer a plan for a smaller government, one that maximizes economic growth and avoids infringing on individual liberty and private-property rights.

10 Books that Screwed Up the World Sep 05 2020 You've heard of the "Great Books"? These are their evil opposites. From Machiavelli's *The Prince* to Karl Marx's *The Communist Manifesto* to Alfred Kinsey's *Sexual Behavior in the Human Male*, these "influential" books have led to war, genocide, totalitarian oppression, family breakdown, and disastrous social experiments. And yet these authors' bad ideas are still popular and pervasive--in fact, they might influence your own thinking without your realizing it. Here with the antidote is Professor Benjamin Wiker. In his scintillating new book, *10 Books That Screwed Up the World (And 5 Others That Didn't Help)*, he seizes each of these evil books by its malignant heart and exposes it to the light of day.

What's the Matter with Kansas? May 26 2022 One of "our most insightful social observers"* cracks the great political mystery of our time: how conservatism, once a marker of class privilege, became the creed of millions of ordinary Americans. With his acclaimed wit and acuity, Thomas Frank turns his eye on what he calls the "thirty-year backlash"—the populist revolt against a supposedly liberal establishment. The high point of that backlash is the Republican Party's success in building the most unnatural of alliances: between blue-collar Midwesterners and Wall Street business interests, workers and bosses, populists and right-wingers. In asking "what 's the matter with Kansas?"—how a place famous for its radicalism became one of the most conservative states in the union—Frank, a native Kansan and onetime Republican, seeks to answer some broader American riddles: Why do so many of us vote against our economic interests? Where's the outrage at corporate manipulators? And whatever happened to middle-American progressivism? The questions are urgent as well as provocative. Frank answers them by examining pop conservatism—the bestsellers, the radio talk shows, the vicious political combat—and showing how our long culture wars have left us with an electorate far more concerned with their leaders' "values" and down-home qualities than with their stands on hard questions of policy. A brilliant analysis—and funny to boot—*What's the Matter with Kansas?* presents a critical assessment of who we are, while telling a remarkable story of how a group of frat boys, lawyers, and CEOs came to convince a nation that they spoke on behalf of the People. *Los Angeles Times

10 Books Every Conservative Must Read Jan 02 2023 Features a range of works that the author argues are essential reading for conservatives and Republicans, including *Democracy in America*, *The Federalist Papers*, *Sense and Sensibility* and much more, all of which hold important lessons within their pages. By the author of *10 Books That Screwed Up the World*. Original.

Conservatism May 14 2021 "...one of the most eloquent and even moving evocations of the conservative tradition in Western politics, philosophy and culture I have ever read...the ideal primer for those who are new to conservative ideas..." —Richard Aldous, *Wall Street Journal* A brief magisterial introduction to the conservative tradition by one of Britain's leading intellectuals. In *Conservatism*, Roger Scruton offers the reader an invitation into the world of political philosophy by explaining the history and evolution of the conservative movement over the centuries. With the clarity and authority of a gifted teacher, he discusses the ideology's perspective on civil society, the rule of law, freedom, morality, property, rights, and the role of the state. In a time when many claim that conservatives lack a unified intellectual belief system, this book makes a very strong case to the contrary, one that politically-minded readers will find compelling and refreshing. Scruton analyzes the origins and development of conservatism through the philosophies and thoughts of John Locke, Thomas Hobbes, Adam Smith and Milton Friedman, among others. He shows how conservative ideas have influenced the political sector through the careers of a diverse cast of politicians, such as Thomas Jefferson, Benjamin Disraeli, Ronald Reagan and Margaret Thatcher. He also takes a close look at the changing relationship between conservative politics, capitalism, and free markets in both the UK and the US. This clear, incisive guide is essential reading for anyone wishing to understand Western politics and policies, now and over the last three centuries.

There Goes My Social Life Nov 07 2020 Stacey Dash didn't have the ideal American childhood. Growing up in the South Bronx, her friends were the hustlers, hookers, and gang members who struggled in the face of futility, who sold drugs instead of living on food stamps, who settled matters with fists, knives, and guns because it seemed their only option, who stood tall against broken dreams. Dash's rough upbringing shaped the rest of her life—her relationships, her politics, even her faith. She has seen how conservative and liberal policies play out in the real world, and her experiences have made her the proud conservative she is today. That's why Stacey Dash, a Fox News contributor and Hollywood actress best known for starring in the 1995 classic *Clueless*, is now telling her story. Amidst all the heated racial rhetoric and the divisive language that flows from T.V., the Internet, self-appointed black spokespeople, and even President Obama, Dash feels compelled to speak out and say something true about race, politics, and America.

The Aggressive Conservative Investor Aug 24 2019 "The Aggressive Conservative Investor will never go out of date. Regulation, disclosure, and other things may change, but the general approach and mindset to successful investing are timeless. Read this book and you will learn the rudiments of 'safe and cheap' investing. An essential read for every amateur and professional investor." --Stan Garstka, Deputy Dean & Professor in the Practice of Faculty & Management, Yale School of Management "Security analysis toward both better odds and higher long-term payoff: A readable, authoritative guide." --Professor Bill Baumol, New York University "In reading this book, one is struck by the simplicity of the ideas and the dependence of the investor on his own understandings of reality as opposed to the myths on the street. The updated version of this 1979 classic incorporates all the modern financial engineering that has occurred as a product of the late 20th century, and the new methodologies refine your abilities to measure risk but don't change the fundamentals of value. The updated version of *The Aggressive Conservative Investor* is very much a value-added proposition." --Sam Zell, Chairman, Equity Group Investment LLC "I concur with those people who regard Marty Whitman as the 'Dean of Value Investing.' This book is a must-read for everyone interested in understanding the art of investing." --Melvin T. Stith, Dean, Whitman School of Management, Syracuse University This no-holds-barred presentation of one of the most successful investment strategies of all time -- value investing in distressed securities/companie -- shows you how to analyze and evaluate stocks just like controlling owners. Based on the assumption that stock price rarely reflects real value, authors Whitman and Shubik use numerous case studies to present risk-minimizing methods that also provide high rewards. Still relevant today, this classic work includes a new introduction discussing the dramatic changes that have taken place in the value investing world since its first publication in 1979.

Conservative Moments Sep 17 2021 As a complex and multifaceted world-view, conservatism is often pigeonholed and partially understood. And while the nature of conservative ideology is

warmly contested among scholars, no-one can deny its prominence in contemporary debates and its effects on the politics of everyday life. These 16 essays written by expert scholars and specialists offer a broad survey of conservative thought that extends beyond typical historical and geographic boundaries to include past thinkers like Plato and Edmund Burke, non-European conservative traditions such as Japan and Russia, and political 'practitioners' including Margaret Thatcher, Ronald Reagan and Charles de Gaulle. Each essay grapples with short primary source extracts while offering instructive criticism and commentary. Conservative Moments offers students a useful, accessible, and comprehensive exposition of this political ideology.

How to Educate an American Jan 10 2021 In the years after *A Nation at Risk*, conservatives' ideas to reform America's lagging education system gained much traction. Key items like school choice and rigorous academic standards drew bipartisan support and were put into practice across the country. Today, these gains are in retreat, ceding ground to progressive nostrums that do little to boost the skills and knowledge of young people. Far from being discouraged, however, conservatives should seize the moment to refresh their vision of quality K–12 education for today's America. These essays by 20 leading conservative thinkers do just that. Students, according to this vision, should complete high school with a thorough understanding of the country's history, including gratitude for its sacrifices, respect for its achievements, and awareness of its shortcomings. They should also learn to be trustworthy stewards of a democratic republic, capable of exercising virtue and civic responsibility. Beyond helping to form their character, schools ought to ready their pupils for careers that are productive, rewarding, and dignified. Excellent technical-training opportunities will await those not headed to a traditional college. Regardless of the paths and schools that they select, all students must come to understand that they can succeed in America if they are industrious, creative, and responsible. Anchored in tradition yet looking towards tomorrow, *How to Educate an American* should be read by anyone concerned with teaching future generations to preserve the country's heritage, embody its universal ethic, and pursue its founding ideals.

Young Guns Mar 24 2022 America urgently needs a new direction. But who will provide it? The time has come to move the country forward with a clear agenda based on common sense for the common good. THERE IS A BETTER WAY. Make no mistake: Congressmen Eric Cantor, Paul Ryan, and Kevin McCarthy are proud Republicans. But they believe the party had lost sight of the ideals it believes in, like economic freedom, limited government, the sanctity of life, and putting families first. This isn't your grandfather's Republican party. These Young Guns of the House GOP—Cantor (the leader), Ryan (the thinker), and McCarthy (the strategist)—are ready to take their belief in the principles that have made America great and translate it into solutions that will make the future even better, solutions that will create private sector jobs, maximize individual freedom, and establish a better world for our children. This groundbreaking book is a call to action that sets forth a plan for growth, opportunity, and commitment that will propel this country to prosperity once again. Together, the Young Guns are changing the face of the Republican party and giving us a new road map back to the American dream.

Protection and Politics Nov 19 2021 Examination of debate within the Conservative party over the principles of free trade. The complex and troubled relationship between protectionism and Conservatism in nineteenth-century Britain is the focus of this book. It looks at how the developing free-trade orthodoxy was challenged within Conservatism, and offers new perspectives on the intellectual controversies which precipitated the Conservative party's split of 1846 and the intricate denouement of 1846-52. In contrast to traditional accounts, it also seeks to explore the intellectual character of opposition to the evolving mid-Victorian consensus framed around free trade, laissez-faire and sound money, revealing how Conservatives debated key aspects of economic policy. Through an exhaustive reading of Conservative journals, pamphlets and contributions to parliamentary debates, the author is able to expose an alternative set of ideas about the direction of British economic and social change and the role of government in moulding it. Dr ANNA GAMBLES is lecturer in modern British history, University of Kent at Canterbury.

Dryden and the Conservative Myth Oct 31 2022

Giving the Devil His Due Oct 26 2019 Flannery O'Connor and Fyodor Dostoevsky shared a deep faith in Christ, which compelled them to tell stories that force readers to choose between eternal life and demonic possession. Their either-or extremism has not become more popular in the last fifty to a hundred years since these stories were first published, but it has become more relevant to a twenty-first-century culture in which the lukewarm middle ground seems the most comfortable place to dwell. *Giving the Devil His Due* walks through all of O'Connor's stories and looks closely at Dostoevsky's magnum opus *The Brothers Karamazov* to show that when the devil rules, all hell breaks loose. Instead of this kingdom of violence, O'Connor and Dostoevsky propose a kingdom of love, one that is only possible when the Lord again is king.

Theodore Roosevelt Dec 21 2021 Joshua Hawley examines Roosevelt's political thought to arrive at a revised understanding of his legacy. He sees Roosevelt as galvanizing a 20-year period of reform that permanently altered American politics and Americans' expectations for government social progress and presidents.

Strictly Right Feb 29 2020 An affectionate portrait of the man who started it all "With this graceful homage to Bill Buckley, two people who have known the pleasure of his company as friends and colleagues place him where he incontestably belongs--at the center of the conservative political movement that moved the center of American politics to the right." --George F. Will, *Newsweek* "Strictly Right paints an intimate and penetrating portrait of the elegant and multifaceted figure who has helped to add a new dimension to the American political canvas." --Henry A. Kissinger "Bill and I and others have been good friends for almost sixty years and I thought I knew of his life as well as anyone, but Linda and John have brought the events together in a magnificent story that surpasses all that we have absorbed. If you like and admire Bill, you must read this. If you don't, read it anyway--it will be good for you." --Evan G. Galbraith, former Ambassador to France and Chairman of National Review "Linda Bridges and John Coyne evoke the true old times, when every morning brought a noble chance, and every chance brought out William F. Buckley Jr., ready to write, speak, question, provoke, tease, or praise, in print, in person, or on the tube, as required. All honor to him, and to the authors who capture him in these pages." --Richard Brookhiser, author of *What Would the Founders Do?: Our Questions, Their Answers*

Reading the Right Books Dec 01 2022 The things I want to know are in books, Abraham Lincoln wrote, and so he read. Good books are rightly addictive, enticing the dedicated reader to open more books, and gain more knowledge, and come closer to wisdom. The more one reads, John Adams observed, the more one sees we have to read. Books contain the ideas, make the arguments, and

preserve the history necessary for the maintenance and perpetuation of liberty. *Reading the Right Books* is a practical list of thoughtful and accessible books—not the classics but solidly good books—recommended to provide a general framework around which the reader can build a firmer structure of political knowledge. Edited and annotated by Lee Edwards, the Distinguished Fellow in Conservative Thought at The Heritage Foundation, *Reading the Right Books* is a guide for intelligent, conservative-minded readers who want to prepare themselves for a public life of thought and action, and to seek to know more about politics, public policy and modern conservative thought, as well as literature, economics, religion, history, and statesmanship.

Messengers of the Right Dec 29 2019 *Messengers of the Right* tells the story of the media activists who built the American conservative movement and transformed it into one of the most significant and successful movements of the twentieth century—and in the process remade the Republican Party and the American media landscape.

Conservatism Jun 02 2020 The idea that American conservatism is identical to "classical" liberalism—widely held since the 1960s—is seriously mistaken. The award-winning political theorist Yoram Hazony argues that the best hope for Western democracy is a return to the empiricist, religious, and nationalist traditions of America and Britain—the conservative traditions that brought greatness to the English-speaking nations and became the model for national freedom for the entire world. *Conservatism: A Rediscovery* explains how Anglo-American conservatism became a distinctive alternative to divine-right monarchy, Puritan theocracy, and liberal revolution. After tracing the tradition from the Wars of the Roses to Burke and across the Atlantic to the American Federalists and Lincoln, Hazony describes the rise and fall of Enlightenment liberalism after World War II and the present-day debates between neoconservatives and national conservatives over how to respond to liberalism and the woke left. Going where no political thinker has gone in decades, Hazony provides a fresh theoretical foundation for conservatism. Rejecting the liberalism of Hayek, Strauss, and the "fusionists" of the 1960s, and drawing on decades of personal experience in the conservative movement, he argues that a revival of authentic Anglo-American conservatism is possible in the twenty-first century.
