Weary Warriors Jul 15 2021 As seen in military documents, medical journals, novels, films, television shows, and memoirs, soldiers' invisible wounds are not innate cracks in individual psyches that break under the stress of war. Instead, the generation of weary warriors is caught up in wider social and political networks and institutions—families, activist groups, government bureaucracies, welfare state programs—mediated through a military hierarchy, psychiatry rooted in mind-body sciences, and various cultural constructs of masculinity. This book offers a history of military psychiatry from the American Civil War to the latest Afghanistan conflict. The authors trace the effects of power and knowledge in relation to the emotional and psychological trauma that shapes soldiers' bodies, minds, and souls, developing an extensive account of the emergence, diagnosis, and treatment of soldiers' invisible wounds.

Red Comet Dec 20 2021 PULITZER PRIZE FINALIST • The highly anticipated biography of Sylvia Plath that focuses on her remarkable literary and

intellectual achievements, while restoring the woman behind the long-held myths about her life and art. "One of the most beautiful biographies I've ever read." —Glennon Doyle, author of #1 New York Times Bestseller, *Untamed* With a wealth of never-before-accessed materials, Heather Clark brings to life the brilliant Sylvia Plath, who had precocious poetic ambition and was an accomplished published writer even before she became a star at Smith College. Refusing to read Plath's work as if her every act was a harbinger of her tragic fate, Clark considers the sociopolitical context as she thoroughly explores Plath's world: her early relationships and determination not to become a conventional woman and wife; her troubles with an unenlightened mental health industry; her Cambridge years and thunderclap meeting with Ted Hughes; and much more. Clark's clear-eyed portraits of Hughes, his lover Assia Wevill, and other demonized players in the arena of Plath's suicide promote a deeper understanding of her final days. Along with illuminating readings of the poems themselves, Clark's meticulous, compassionate research brings us closer than ever to the spirited woman and visionary artist who blazed a trail that still lights the way for women poets the world over.

Love Is Darkness Nov 30 2022 In London for graduate school, Valerie Dearborn draws the attention of Lucas, a 1600-year-old Vampire, who makes her an offer she can't refuse - help him find out if the Others (Empaths, Fey and Werewolves) still exist or he'll stop protecting those she loves.

Ecstatic Cahoots Dec 08 2020 In this remarkable collection of bite-size stories, Stuart Dybek, one of our most prodigious writers, explores the human appetite for rapture and for trust. With fervent intensity and sly wit, he gives each tale his signature mix of characters—some almost ghostly, others vividly real—who live in worlds tinged with surreal potential. There are crazed nuns hijacking streetcars, eerie adventures across frozen ponds, and a boy who is visited by a miniature bride and groom every night in his uncle's doomsday compound. Whether they are about a simple transaction, a brave inquiry, a difficult negotiation, or shared bliss, the stories in *Ecstatic Cahoots* target the friction between our need for ecstatic self-transcendence and our passionate longing for trust between lovers, friends, family, and even strangers. Call it micro-fiction or mini-fiction, flash fiction or short shorts. Whatever the label, the marvelous encounters here are marked by puzzlement, anguish, and conspiratorial high spirits. In this thrilling collection, Stuart Dybek has once again re-envisioned the possibilities of fiction, creating myriad human situations that fold endlessly upon each other, his crackling prose drawing out the strange, the intimate, and the mysterious elements in each.

The Cambridge International Handbook of Lean Production Mar 30 2020 This handbook focuses on two sides of the lean production debate that rarely interact. On the one hand, management and industrial engineering scholars have presented a positive view of lean production as the epitome of efficiency and quality. On the other hand, sociology, industrial relations, and labor relations scholars focus on work speedups, management by stress, trade union positions, and self-exploitation in lean teams. The editors of this volume understand the merits of both views and present them accordingly, bridging the gaps among five disciplines and presenting the best of each perspective. Chapters by internationally acclaimed authors examine the positive, negative and neutral possible

effects of lean, providing a global view of lean production while adjusting lean to the cultural and political contexts of different nation-states. As the first multi-lens view of lean production from academic and consultant perspectives, this volume charts a way forward in the world of work and management in our global economy.

The Purpose of Power Sep 16 2021 An essential guide to building transformative movements to address the challenges of our time, from one of the country's leading organizers and a co-creator of Black Lives Matter "Excellent and provocative . . . a gateway [to] urgent debates."—Keeanga-Yamahtta Taylor, *The New Yorker* NAMED ONE OF THE BEST BOOK OF THE YEAR BY Time • Marie Claire • Kirkus Reviews In 2013, Alicia Garza wrote what she called "a love letter to Black people" on Facebook, in the aftermath of the acquittal of the man who murdered seventeen-year-old Trayvon Martin. Garza wrote: Black people. I love you. I love us. Our lives matter. With the speed and networking capacities of social media, #BlackLivesMatter became the hashtag heard 'round the world. But Garza knew even then that hashtags don't start movements—people do. Long before #BlackLivesMatter became a rallying cry for this generation, Garza had spent the better part of two decades learning and unlearning some hard lessons about organizing. The lessons she offers are different from the "rules for radicals" that animated earlier generations of activists, and diverge from the charismatic, patriarchal model of the American civil rights movement. She reflects instead on how making room amongst the woke for those who are still awakening can inspire and activate more people to fight for the world we all deserve. This is the story of one woman's lessons through years of bringing people together to create change. Most of all, it is a new paradigm for change for a new generation of changemakers, from the mind and heart behind one of the most important movements of our time.

The Joy Luck Club Mar 23 2022 "The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational." —Kevin Kwan, author of Crazy Rich Asians Amy Tan's beloved, New York Times bestselling tale of mothers and daughters, now the focus of a new documentary Amy Tan: Unintended Memoir on Netflix Four mothers, four daughters, four families whose histories shift with the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.

Love Is Fear Jan 01 2023 Love is Fear is the highly anticipated sequel to the Number One Fantasy Bestseller, Love is Darkness. After a lot of swearing and only a little nookie, Valerie Dearborn has decided to make a change. No more lusting after Lucas, the hot, but emotionless, vampire king who can't commit. Instead she's going to make it work with Jack. After all, not only is he breathing, but he's the love of her life....Isn't he? Valerie is an Empath, with supernatural abilities that seem to do nothing more than give her the hots for Lucas. Once upon a time, Empath's had a purpose. They were ambassadors to the Others-Fey, Witches, Werewolves and Vampires. They could settle the emotions of a Werewolf and make Vampires feel again. But that was long ago. Lucas isn't about to let Valerie go. He needs her to help him find the Fey, last seen in the Colony of Roanoke, South Carolina, circa 1587. He still believes they are the key to restoring balance to the world and the only way to keep vampires under control. They won't trust him, but they will trust Val. Between Jack, Lucas and Rachel, Val knows life won't be dull. Nor will it be the normal, 2.5 kids kind of life she's always wanted. As their enemies close in, Val must ask herself what life is really about-trust, duty or mind-blowing orgasms? And even if she finds the answer, she may not live long enough to enjoy it. Please note-this novel is not YA and has lots of sass, swearing and sex. Not necessarily in that order.

History of Philosophy and the Reflective Society Aug 16 2021 This book is about innovation, reflection and inclusion. Cultural innovation is something real that tops up social and technological innovation by providing the reflective society with spaces of exchange in which citizens engage in the process of sharing their experiences while appropriating common goods content. We are talking of public spaces such as universities, academies, libraries, museums, science-centres, but also of any place in which co-creation activities may occur. The argument starts with the need for new narratives in the history of philosophy, which can be established through co-creation, the motor of cultural innovation. The result is redefining the history of philosophy in terms of a dialogical civilization by ensuring continuous translations, individual processes of reflection and collective processes of inclusion. Readers will grasp the effectiveness of the history of philosophy in societies that are inclusive, innovative and reflective.

Beyond Convergence Sep 04 2020 The world order built upon the Peace of Westphalia is faltering. State fragility or failure are endemic, with no fewer than one-third of the states in the United Nations earning a "high warning"-or worse-in the Fragile States Index, and an equal number suffering a decline in sustainability over the past decade.¹ State weakness invites a range of illicit actors, including international terrorists, globally networked insurgents, and transnational criminal organizations (TCOs). The presence and operations of these entities keep states weak and incapable of effective governance, and limit the possibility of fruitful partnerships with the United States and its allies. Illicit organizations and their networks fuel corruption, eroding state legitimacy among the governed, and sowing doubt that the state is a genuine guardian of the public interest. These networks can penetrate the state, leading to state capture, and even criminal sovereignty.² A growing number of weak and corrupt states is creating gaping holes in the global rule-based system of states that we depend on for our security and prosperity. Indeed, the chapters of this book suggest the emergence of a highly adaptive and parasitic alternative ecosystem, based on criminal commerce and extreme violence, with little regard for what we commonly conceive of as the public interest or the public good. The last 10 years have seen unprecedented growth in interactivity between and among a wide range of illicit networks, as well as the emergence of hybrid organizations that use methods characteristic of both terrorist and criminal groups. In a convergence of interests, terrorist organizations collaborate with cartels, and trafficking organizations collude with insurgents. International terrorist organizations, such as al-Qaeda and Hezbollah, engage energetically in transnational crime to raise funds for their operations. Prominent criminal organizations like Los Zetas in Mexico and D-Company in Pakistan have adopted the symbolic violence of terrorists-the propaganda of the deed-to secure their "turf." And networked insurgents, such as the Islamic State of Iraq and the Levant (ISIL), the Revolutionary Armed Forces of Colombia (FARC), and the Liberation Tigers of Tamil Eelam (LTTE), have adopted the techniques of both crime and terror.

After the Projects Mar 11 2021 America is in the midst of a rental housing affordability crisis. More than a quarter of those that rent their homes spend more than half of their income for housing, even as city leaders across the United States have been busily dismantling the nation's urban public housing projects. In *After the Projects*, Lawrence Vale investigates the deeply-rooted spatial politics of public housing development and redevelopment at a time when lower-income Americans face a desperate struggle to find affordable rental housing in many cities. Drawing on more than 200 interviews with public housing residents, real estate developers, and community leaders, Vale analyzes the different ways in which four major American cities implemented the federal government's HOPE VI program for public housing transformation, while also providing a national picture of this program. Some cities attempted to minimize the presence of the poorest residents in their new mixed-income communities, but other cities tried to serve as many low-income households as possible. Through examining the social, political, and economic forces that underlie housing displacement, Vale develops the novel concept of governance constellations. He shows how the stars align differently in each city, depending on community pressures that have evolved in response to each city's past struggles with urban renewal. This allows disparate key players to gain prominence when implementing HOPE VI redevelopment. A much-needed comparative approach to the existing research on public housing, *After the Projects* shines a light on the broad variety of attitudes towards public housing redevelopment in American cities and identifies ways to achieve more equitable processes and outcomes for low-income Americans.
