Desistance from Crime Aug 07 2020 This book represents a brief treatise on the theory and research behind the concept of desistance from crime. This ever-growing field has become increasingly relevant as questions of serious issues regarding sentencing, probation and the penal system continue to go unanswered. Rocque covers the history of research on desistance from crime and provides a discussion of research and theories on the topic before looking towards the future of the application of desistance to policy. The focus of the volume is to provide an overview of the

practical and theoretical developments to better understand desistance. In addition, a multidisciplinary, integrative theoretical perspective is presented, ensuring that it will be of particular interest for students and scholars of criminology and the criminal justice system.

The Criminology of Criminal Law Sep 27 2019 *The Criminology of Criminal Law* considers the relation between criminal law and theories of crime, criminality and justice. This book discusses a wide range of topics, including: the way in which white-collar crime is defined; new perspectives on stranger violence; the reasons why criminologists have neglected the study of genocide; the idea of boundary crossing in the control of deviance; the relation between punishment and social solidarity; the connection between the notion of justice and modern sentencing theory; the social reaction to treason; and the association between politics and punitiveness. Contributors include Bonnie Berry, Don Gottfredson, David F. Greenberg, Marc Riedel, Jason Rourke, Kip Schlegel, Vered Vinitzky-Seroussi, Leslie T. Wilkins, Marvin E. Wolfgang, and Richard A. Wright. *The Criminology of Criminal Law* concludes with an analysis of the results of a study on the most cited scholars in the *Advances in Criminological Theory* series. This work will be beneficial to criminologists, sociologists, and scholars of legal studies. *Advances in Criminological Theory* is the first series exclusively dedicated to the dissemination of original work on criminological theory. It was created to overcome the neglect of theory construction and validation in existing criminological publications.

Delinquency and Drift Dec 11 2020 The first C. Wright Mills Award-winning book, *Delinquency and Drift* has become a recognized classic in the fields of criminology and social problems. In it, Matza argues persuasively that delinquent thought and delinquent action are distorted reflections of the ideas and practices that pervade contemporary juvenile law and its administration. His ideas are as persuasive today as when they were first published twenty-five years ago. By example and illustration, Matza argues that the delinquent subculture is based on many of the same standards as the conventional social order, and that the delinquent's negation of the law is the result of his relations with an inconsistent and vulnerable legal code. Once the juvenile breaks his or her ties to the legal order, the drift to delinquency becomes relatively easy to justify. The author also maintains that being liberated from legal constraint does not necessarily lead to delinquency; that event depends on the will to commit crime. Because delinquency remains one of our most serious social problems, it is important to consider Matza's thesis that the drift toward delinquency is frequently aided by the unwitting support of society and the guardians of social order.

Delinquency in Society: The Essentials Apr 14 2021 *Delinquency in Society: The Essentials* is a concise introduction to the important topics covered by the same authors in the popular *Delinquency in Society*, Eighth Edition. This practical text explores how juvenile delinquency is defined, measured, and explained, as well as how the juvenile justice system deals with delinquent youth. This new *Essentials* text provides separate chapters focusing on the police, juvenile courts, corrections, and delinquency prevention. Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition.

From the War on Poverty to the War on Crime Mar 02 2020 How did the land of the free become the home of the world's largest prison system? Elizabeth Hinton traces the rise of mass incarceration to an ironic source: not the War on Drugs of the Reagan administration but the War on Crime that began during Johnson's Great Society at the height of the civil rights era.

Delinquency in Society Dec 23 2021 *Delinquency in Society*, Eighth Edition provides a systematic introduction to the study of juvenile delinquency, criminal behavior, and status offending youths. This text examines the theories of juvenile crimes and the social context of delinquency including the relevance of families, schools, and peer groups. Reorganized and thoroughly updated to reflect the most current trends and developments in juvenile delinquency, the Eighth Edition includes discussions of the history, institutional context, and societal reactions to delinquent behavior. Delinquency prevention programs and basic coverage of delinquency as it relates to the criminal justice system are also included to add context and support student comprehension.

Classics of Criminology Feb 10 2021 *Classics of Criminology* is a compilation of writings produced over the last 240 years. These writings represent the most influential approaches to describing and

explaining crime and the social responses to crime. The organization of the collection enables readers to follow the development and application of key ideas from one major author to the next. **The Subculture of Violence** May 16 2021 A re-issue of the 1967 classic. Since the book was first published, the subculture of violence hypothesis has been widely accepted. The book is a forceful statement of the need to integrate social science knowledge across the artificial boundaries of scholarly disciplines. Literature from sociology, biology, psychiatry and law is drawn together to create a model of criminal behaviour that has proved to be of use to scientist and policy-maker alike. 'The work provides a comprehensive survey and analytical discussion of studies concerned with aggression, violence, and homicide.' -- Adolescence 'Since the first edition in 1967 this book has become a classic in the criminological literature and has been

Code of the Street: Decency, Violence, and the Moral Life of the Inner City Mar 14 2021 Unsparing and important. . . . An informative, clearheaded and sobering book.—Jonathan Yardley, Washington Post (1999 Critic's Choice) Inner-city black America is often stereotyped as a place of random violence, but in fact, violence in the inner city is regulated through an informal but well-known code of the street. This unwritten set of rules—based largely on an individual's ability to command respect—is a powerful and pervasive form of etiquette, governing the way in which people learn to negotiate public spaces. Elijah Anderson's incisive book delineates the code and examines it as a response to the lack of jobs that pay a living wage, to the stigma of race, to rampant drug use, to alienation and lack of hope.

Delinquency in Two Birth Cohorts Mar 26 2022

From Boy to Man, from Delinquency to Crime May 28 2022 This is a follow-up study to "Delinquency in a birth cohort", the 1972 study which traced the development from birth to age 18 of male delinquents in the Philadelphia birth cohort of 1945. This study follows a sample from the original cohort up to age 30 and extends the analytic strategies of the previous work. More than 60 per cent of the subjects were interviewed at age 25. Their attitudes, values, experiences as crime victims, self-reported involvement in crime, and other facets of their lives are used to round out the picture developed from official sources. Among their findings, the authors show that : there is little offense specialization, even during adult years; that the seriousness of offenses increases with age, but that the actual number of crimes committed decreases. In other aspects -- such as the intervals between arrests and differences between white and non-white arrest patterns -- the adult data sometimes replicate juvenile results and sometimes offer new insights into offender patterns.

Criminal Violence Aug 26 2019 '...four chapters alone are worth the price of the volume and are recommended to serious researchers in the area of violent crime and delinquency.' -- Contemporary Psychology, Vol 28 No 6, 1983 'The collection provides a highly useful anthology of current research into the parameters of criminally violent behavior, including a wide selection of viewpoints.' -- The Police Chief, January 1984

Juvenile Delinquency Nov 21 2021 Juvenile Delinquency: An Integrated Approach provides a thorough examination of the primary theories of delinquency along with the most recent and relevant research in the field. The social contexts of delinquency--families, peers, schools, drugs, and gangs--are considered within the theoretical traditions that most actively address these arenas. With a writing style praised by reviewers and students alike, Burfeind and Bartusch do an outstanding job helping students understand juvenile delinquency. The text is divided into four main sections, containing 15 chapters. The first two sections focus on defining and describing juvenile delinquency. The third section concentrates on explaining delinquent behavior, while the fourth section considers responding to juvenile delinquency through contemporary juvenile justice systems.

Delinquency Careers in Two Birth Cohorts Sep 19 2021 Delinquency in a Birth Cohort, published in 1972, was the first criminological birth cohort study in the United States. Nils Christie, in Unge norske lovovertredere, had done the first such study as his dissertation at the University of Oslo in 1960. Professor Thorsten Sellin was the inspiration for the U.S. study. He could read Norwegian, and I could a little because I studied at the University of Oslo in my graduate years. Our interest in pursuing a birth cohort study in the United States was fostered by the encouragement of Saleem

Shah who awarded us a grant from the National Institute of Mental Health to begin our birth cohort studies at the University of Pennsylvania by investigating the delinquency of the 1945 cohort. We studied this group of 9,945 boys extensively through official criminal history and school records of their juvenile years. Subsequently, we followed up the cohort as adults using both adult arrest histories and an interview of a sample of the cohort. Our follow-up study was published as *From Boy to Man, From Delinquency to Crime* in 1987.

Collective Violence Jul 30 2022 *Collective violence* has played an important role throughout American history, though we have typically denied it. But it is not enough to repress violence or to suppress our knowledge of it. We must understand the phenomenon, and to do this, we must learn what violent groups are trying to say. That some choose violence tells us something about the perpetrators, inevitably, about ourselves and the society we have built.

Thinking About Crime Nov 09 2020 As crime rates inexorably rose during the tumultuous years of the 1970s, disputes over how to handle the violence sweeping the nation quickly escalated. James Q. Wilson redefined the public debate by offering a brilliant and provocative new argument—that criminal activity is largely rational and shaped by the rewards and penalties it offers—and forever changed the way Americans think about crime. Now with a new foreword by the prominent scholar and best-selling author Charles Murray, this revised edition of *Thinking About Crime* introduces a new generation of readers to the theories and ideas that have been so influential in shaping the American justice system.

Control Balance Oct 09 2020 A major contribution to the field of crime/deviance, this volume by noted criminologist Charles R. Tittle puts forth an integrated theory of deviance—control balance. Its central premise is that the total amount of control people are subjected to, relative to the control

they can exercise, will affect the probability and type of their deviant behavior. In developing control balance, Tittle critically reviews other general theories such as anomie, Marxian conflict, social control, differential association/social learning, labelling, and routine activities and offers reasons why those theories are insufficient. Using real-world examples to illustrate his argument, he contends that deviance results from the convergence of four variables, each of which represents an interactive nexus of several inputs, including most prominently a control imbalance. The variables are predisposition, motivation, opportunity, and constraint. Control balance theory also explains six basic types of deviance, ranging from predation, defiance, and submissiveness on one end of a control ratio continuum to exploitation, plunder, and decadence on the other. Tittle conceives of control balance as a continuation, or temporary culmination, of the collective efforts of crime/deviance scholars who have gone before, presenting it as a vehicle for trying to achieve a fully adequate general theory of deviance.

Juvenile Delinquency: an Integrated Approach Nov 29 2019 *Juvenile Delinquency: An Integrated Approach*, Second Edition offers a comprehensive introduction to juvenile delinquency. Now in a more concise and accessible format, this text cultivates an understanding of juvenile delinquency by examining and linking key sociological and criminological theories and research. Biological and psychological approaches to delinquency are covered, as well as responses to delinquent behavior including prevention, early intervention, and contemporary juvenile justice.

Delinquency in a Birth Cohort Jan 04 2023 Biographies of nine well-known twentieth-century Americans. Includes a section of questions about each person.

Youth Violence Sep 07 2020 This hearing focused on a bill to amend the Juvenile Justice and Delinquency Prevention Act of 1974 to identify violent and hard core juvenile offenders and treat them as adults. Opening statements by four U.S. senators (the Honorable Fred Thompson, Herbert Kohl, Joseph R. Biden, Jr., and Orrin G. Hatch) present various perspectives on the role of the federal government in dealing with the problem of increasing youth violence. Following that are prepared statements by Senator John Ashcroft; Shay Bilchik, Administrator, Office of Juvenile Justice and Delinquency Prevention, U.S. Department of Justice; a panel consisting of Laurie E. Ekstrand, Associate Director, Administration of Justice Issues, General Government Division, U.S. General Accounting Office; Ira Schwartz, Dean, School of Social Work, University of Pennsylvania; and Lavonda Taylor, Chair, Coalition for Juvenile Justice, West Memphis, AR; and a panel consisting of Marvin E. Wolfgang, Professor of Criminology and of Law and Director, Selin Criminology Center, University of Pennsylvania; Delbert S. Elliott, Director, Center for the Study and Prevention of Violence, University of Colorado, Boulder; and Terence P. Thornberry, Professor, School of Criminal Justice, State University of New York at Albany, NY. An appendix presents questions and answers. (SM)

Facts, Frameworks, and Forecasts Aug 19 2021 Facts, Frameworks, and Forecasts calls for rethinking the development of criminological theory. In her introduction, Joan McCord argues that the field is ready for new approaches and that its progress depends on a sound factual base. Examining the discipline's research design, methodology, and quantitative analysis efforts, the contributors identify significant advances in criminological theory. This empirical orientation results in a balanced blend of information and speculation. This book contains a comprehensive review. The first chapter describes biological conditions that have theoretical links with criminal behavior—ending with a discussion of how biological and social conditions may interact to influence criminal behavior. Early chapters discuss general issues related to crime. These are followed by expositions of theoretical orientations not typically found in criminological literature. The second half of the book describes seven longitudinal studies in four countries. The authors interpret their data to expose biological, social, and psychological factors they believe may influence criminal behavior. These contributors include: Guenther Knoblich and Roy King, Daniel Glaser, Robert A. Rosellini and Robin L. Lashley, Robert J. Sampson, Ellen S. Cohn and Susan O. White, Joan McCord, L. Rowell Huesmann and Leonard D. Eron, Robert Cairns and Beverly Cairns, Richard E. Tremblay, Patricia Cohen and Judith S. Brook, David P. Farrington and David Magnussen, Britt af Klinteberg, and Hakan Stattin. Facts, Frameworks, and Forecasts addresses the observation of noted criminologist Marvin Wolfgang that criminological theory had stagnated. This groundbreaking work, available in paperback for the first time, is as relevant now as when first published. It should be read by all concerned with data-related approaches to criminology.

Crime and Justice at the Millennium Dec 03 2022 The major theme of this Festschrift will be state-of-the-art criminology at the millennium and its impact into the 21st century. The editors have solicited major figures in contemporary criminology to elucidate the current state and future prospects of criminology at the turn of the century. It is appropriate that such a volume be produced in honor of Marvin E. Wolfgang, the most influential criminologist in the English-speaking world. Those invited to contribute were students or colleagues of Professor Wolfgang and are themselves distinguished criminologists. They represent criminology both of the past and the future. The appeal of the current book is not that it honors Marvin Wolfgang, but rather that it provides an accounting of where the discipline of criminology currently stands and its future directions. Professor Marvin E. Wolfgang was unsurpassed as a criminologist, distinguished mentor, and gentleman. A book designed to contribute to the most contemporary debates in criminology is a most fitting tribute.

Subculture of Violence Oct 01 2022 Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. Published by Routledge, 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library: Classics from the Tavistock Press. Reproduced here in facsimile, this volume was originally published in 1967 and is available individually. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

Handbook of Scales for Research in Crime and Delinquency Jan 30 2020 In contrast to the great diversity of other crime and delinquency research measures, those drawn from the CPI and the MMPI have much in common. They are taken from standardized instruments administered under controlled conditions, with known stimulus properties and validity indicators. The CPI and MMPI measures will frequently be instruments of choice in research on personality and psychodynamics of offenders. CHAPTER 6 Law Enforcement and Police This chapter encompasses a variety of scales that refer to law enforcement or police agencies. Unfortunately, in the case of many scales, these terms are used simply with the assumption that the respondents understand the concepts and use them in the same way as researchers. In other cases, however, specific policing functions are identified and described. As noted in Chapter 3, a standard order of scale presentation is followed. First the attitudes scales are presented, followed by the behavior ratings, personality measures, milieu ratings, prediction measures and finally the very broad category of description. After the reviews are completed within each subcategory, other scales in that category are listed. (See Chapter 2 for a description of the criteria that were used in deciding upon whether a scale would be reviewed or simply listed.) Listed scales are presented by title and bibliographic reference, followed by a very brief description.
