*The Analects* Jun 16 2021 This book is the revised James Legge translation which has been extensively reworked and restored compared to the freely available Legge translations. The Analects, also known as the Analects of Confucius, is the collection of sayings and ideas attributed to the Chinese philosopher Confucius and his contemporaries, traditionally believed to have been written by Confucius' followers. It is believed to have been written during the Warring States period (475 BC–221 BC), and it achieved its final form during the mid-Han dynasty (206 BC–220 AD). By the early Han dynasty the Analects was considered merely a "commentary" on the Five Classics, but the status of the Analects grew to be one of the central texts of Confucianism by the end of that dynasty. During the late Song dynasty (960-1279) the importance of the Analects as a philosophy work was raised above that of the older Five Classics, and it was recognized as one of the "Four Books". The Analects has been one of the most widely read and studied books in China for the last 2,000 years, and continues to have a substantial influence on Chinese and East Asian thought and values today. Confucius (551–479 BC) was a Chinese teacher, editor, politician, and philosopher of the Spring and Autumn period of Chinese history.

*English in Modern Times* Dec 11 2020 English in Modern Times describes the development of the English language from 1700 until 1945, and argues that it is in the course of this later modern English period that the characteristics of 'modern' English evolved. This is the first undergraduate text to cover the whole of this important period, which has been called the 'Cinderella' of English historical linguistics because of its lack of representation in scholarly literature. This book is sociohistorical in orientation, arguing that social changes in the Anglophone world need to be taken into account if we are to understand the linguistic changes that occurred during this period. Further chapters deal with changes in vocabulary, syntax and morphology and phonology and with the attempts of lexicographers, grammarians and elocutionists to arrest and control these changes by codifying the language. Unlike many earlier histories of English, 'English in Modern Times' does not define 'English' as confined to Standard (English) English, but also considers the development of extraterritorial Englishes and non-standard varieties of British English in the Later Modern period.
