Numbers and statistical claims dominate today's news. Politics, budgets, crime analysis, medical issues, and sports reporting all demand numbers. Now in its third edition, *News & Numbers* focuses on how to evaluate statistical claims in science, health, medicine, and politics. It does so by helping readers answer three key questions about all scientific studies, polls, and other statistical claims: "What can I believe?" "What does it mean?" and "How can I explain it to others?" Updated throughout, this long overdue third edition brings this classic text up-to-date with the 21st century with a complete updating of examples, case studies, and stories. The text emphasises clear thinking and common sense approaches for

understanding, analyzing and explaining statistics, and terms throughout the book are explained in easy-to-understand, nontechnical language. Much new material has been added to ensure the text maintains its pertinent approach to the subject, including: A section on computer modelling Additional chapters on risks and 'missing numbers' Updated sections on health plans and insurance, including updates on President Obama's health system overhaul & new material on health care costs and quality This latest installment in the bestselling *What To Do* series tackles children's feelings of anxiety around current events and what is portrayed in the news. Scary news is an inevitable part of life. This book can support and guide efforts to help scary news seem a bit more manageable for young people. Whether from television news reports, the car radio, digital media, or adult discussions, children are often bombarded with information about the world around them. When the events being described include violence, extreme weather events, a disease outbreak, or discussions of more dispersed threats such as climate change, children may become frightened and overwhelmed. Parents and caregivers can be prepared to help them understand and process the messages around them by using this book. *What to Do When the News Scares You* provides a way to help children put scary events into perspective. And, if children start to worry or become anxious about things they've heard, there are ideas to help them calm down and cope. This book also helps children identify reporters' efforts to add excitement to the story which may also make threats seem more imminent, universal, and extreme. Read and complete the activities in *What to Do When the News Scares You* with your child to help them to understand the news in context—who, what, where, when, how—as a means of introducing a sense of perspective. Provides a process-oriented overview of operations, introducing the concepts and techniques necessary to research, write, shoot, edit and deliver a news story. "If I could pick one book to hand to every teen—and adult—on earth, this is the one. True or False is accessible, thorough, and searingly honest, and we desperately needed it." —Becky Albertalli, author of *Simon vs. the Homo Sapiens Agenda* A former CIA analyst unveils the true history of fake news and gives readers tips on how to avoid falling victim to it in this highly designed informative YA nonfiction title. "Fake news" is a term you've probably heard a lot in the last few years, but it's not a new phenomenon. From the ancient Egyptians to the French Revolution to Jack the Ripper and the founding fathers, fake news has been around as long as human civilization. But that doesn't mean that we

should just give up on the idea of finding the truth. In *True or False*, former CIA analyst Cindy Otis will take readers through the history and impact of misinformation over the centuries, sharing stories from the past and insights that readers today can gain from them. Then, she shares lessons learned in over a decade working for the CIA, including actionable tips on how to spot fake news, how to make sense of the information we receive each day, and, perhaps most importantly, how to understand and see past our own information biases, so that we can think critically about important issues and put events happening around us into context. *True or False* includes a wealth of photo illustrations, informative inserts, and sidebars containing interesting facts and trivia sure to engage readers in critical thinking and analysis. This title has common core connections. From Charles M. Kozierek, the creator of the highly regarded [www.pcguides.com](http://www.pcguides.com), comes *The TCP/IP Guide*. This completely up-to-date, encyclopedic reference on the TCP/IP protocol suite will appeal to newcomers and the seasoned professional alike. Kozierek details the core protocols that make TCP/IP internetworks function and the most important classic TCP/IP applications, integrating IPv6 coverage throughout. Over 350 illustrations and hundreds of tables help to explain the finer points of this complex topic. The book's personal, user-friendly writing style lets readers of all levels understand the dozens of protocols and technologies that run the Internet, with full coverage of PPP, ARP, IP, IPv6, IP NAT, IPSec, Mobile IP, ICMP, RIP, BGP, TCP, UDP, DNS, DHCP, SNMP, FTP, SMTP, NNTP, HTTP, Telnet, and much more. *The TCP/IP Guide* is a must-have addition to the libraries of internetworking students, educators, networking professionals, and those working toward certification. *Introducing the Language of the News* is a comprehensive introduction to the language of news reporting. Assuming no prior knowledge of linguistics, the book provides an accessible analysis of the processes that produce news language, and discusses how different linguistic choices promote different interpretations of news texts. Key features include: comprehensive coverage of both print and online news, including news design and layout, story structure, the role of headlines and leads, style,

grammar and vocabulary a range of contemporary examples in the international press, from the 2012 Olympics, to political events in China and the Iraq War. chapter summaries, activities, sample analyses and commentaries, enabling students to undertake their own analyses of news texts a companion website with extra activities, further readings and web links. Written by an experienced researcher and teacher, this book is essential reading for students studying English language and linguistics, media and communication studies, and journalism. In the latest installment of the Field Guide series, Fred Bayles takes you step-by-step through the process of identifying and covering the events and issues that matter most to your community. For the five local beats—cops, courts, emergencies, schools, and government—you'll learn where to go for information and how to organize and present the stories your neighbors want and need. An overview of tools and techniques include tips on how to find sources, conduct interviews, work with editors, tap the power of the crowd and think multimedia. Then, for each beat, you'll get specifics on: People: The best official and unofficial sources of info, and what to ask them. Places: Where to go on the beat, and what to look for while you're there. Documents: Where to find records in offices and online, how to decipher and use them. Stories: Overview of common story types and how to go beyond them. Resources: Glossary of key terms, checklists, helpful web links. Helps editors of small-town newspapers decide how to report on sensitive issues such as suicides, sexual abuse, and accidents. America is being torn apart by the rise of new sources of news that have no respect for facts or democracy. Coupled with politicians who cast honest journalists as frauds and enemies of the public, they are eroding the informational common ground and poisoning the process of reaching consensus that democracy requires. Public trust in professional journalism has fallen to the lowest point since polls began to measure confidence in the news. That makes us prey for unscrupulous media actors who whip up resentment and hatred of fellow Americans with false and distorted news reports. Because each group now has its own set of "facts," disputes cannot be resolved logically. We are becoming a nation of warring tribes, even to

the point where we no longer wish to associate with each other. As a consequence, lawmakers no longer agree on what's real, much less what to do about it. Congress can no more plot a safe course forward than a squirrel caught in traffic. The only solution that respects freedom of speech is to equip all citizens with some basic tools - habits of mind - enabling them to discern truth from falsehood in this new information ecology of confusion. It's vital that we learn to critically assess news and information because in a democracy a misinformed vote counts as much as a wise one. And everyone is equally bound by the outcome. This book presents a method - the SMELL test - for separating real from fake and misleading news. But it goes much further: \* Assessing the dimensions of a communication revolution that's upending politics and altering every aspect of modern life; \* Exploring the limited nature of facts; \* Explaining the origins of bias and how to uncover them; \* Showing how self-interest on the part of individuals and news organizations influences what becomes news; \* Providing realistic standards for news quality; \* Describing how to "read" images and video; \* Exposing common ways spinmeisters manipulate the public, and finally: \* Reviewing online tools and techniques for unmasking bias, including our own. Mother Earth News Almanac is back--refreshed and ready for the next generation of self-sufficient makers and DIYers. Mother Earth News Almanac: A Guide Through the Seasons returns! The 1970s classic has been out of print for years. Now, updated for today's readers and back in print, its information is as useful as ever. It contains instructions and illustrations for everything from harnessing solar energy to cultivating a sustainable garden to learning how to keep bees. Simply put, Mother Earth News Almanac is designed to empower readers to be self-sufficient. Mother Earth News team has updated the essentials, but left the core of the guide intact, with all the charm of the original--from the writing style to the signature line drawings. This is a must-have for any fan of Mother Earth News, as a budget-friendly guide for a new generation of homesteaders. Mother Earth News Almanac is a seasonal guide with subject matter that every passionate DIYer, homesteader, or environmentally aware reader can appreciate. You'll find recipes, money-

saving tips, and homesteading techniques such as illustrated directions for tying a timber hitch, cat's-paw, sheepshank, and other knots; folk medicine treatments and preventatives; tips on raising chickens and keeping bees; plans for building three kinds of kites; complete instructions for fast and easy compost; and much, much more! The simple life doesn't have to be hard--not when you have this timeless almanac. Coverage of publications outside the UK and in non-English languages expands steadily until, in 1991, it occupies enough of the Guide to require publication in parts. A guide to writing style for all reporters, feature writers, editors, and journalism students. Demonstrates sound professional techniques to give stories clarity, precision and polish. With each passing day the potential reach of a single false news story—and its ability to negatively impact all of us—grows in both size and scope. Although politicians, activists, and ordinary citizens regularly complain about deceptive or biased news reports, they tend to define fake news as anything with which they happen to disagree, thus compounding the problem even further. Seeking to bring some much-needed clarity to the subject, journalist David G. McAfee documents the myriad definitions of "fake news" and its various incarnations throughout history, from ideologically motivated disinformation operations to commercially motivated misinformation campaigns. Demonstrating that we are all culpable in the creation of the current pandemic, he presents a number of practical and actionable suggestions for combating it. In the end, however, he argues that each of us, no matter our political bent, have an important role to play in curbing the insidious spread and most dangerous effects of fake news. Argues that the public accountability of the mass media is decreasing, discusses the implications of this trend, and provides guidelines for detecting bias and coverup College students discuss what colleges are really like, including grades, sports, social life, alcohol policies, gender relations, admissions, and classes "This book examines the role of translation in news making, taking Arabic satellite television as its case study, and presents a framework for journalists, translators, news editors and other media workers to help them avoid the pitfalls of translation mediation."--

P. [4] of cover. Numbers saturate the news, politics, and life. The average person can use basic knowledge and common sense to put the never-ending onslaught of facts and figures in their proper place. A fully revised and updated edition of the bible of the newspaper industry If you think it's time for a change, then News for a Change is the book for you."--BOOK JACKET. Since the 2016 presidential election, the term fake news has become part of the national discourse. Although some have appropriated the term for political purposes, actual fake news represents an inherent threat to American democracy given the ease through which it is consumed and shared via social media. This book is one of the first of its kind to address the implications of fake news for the K-12 classroom. It explores what fake news is, why students are susceptible to believing it, and how they can learn to identify it. Leading civic education scholars use a psychoanalytic lens to unpack why fake news is effective and to show educators how they can teach their students to be critical consumers of the political media they encounter. The authors also link these ideas to the broader task of civic education and critical engagement in the democratic process. "Inside this book you will find descriptions of simple lessons practiced by experts that can help make students more critical news consumers." —From the Foreword by Rebecca Klein, HuffPost "One of the notable strengths of this book is its emphasis on concrete approaches to help students protect themselves and the larger democracy from the insidious influence of fake news." —Diana Hess, University of Wisconsin-Madison "This book is both an important contribution to social studies education and a timely response to the demands of our current political moment." —John Rogers, Institute for Democracy, Education, and Access, UCLA The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow

Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race. "The next book in our What to Do series about helping kids process scary events and stories they are exposed to"-- The New News offers an approachable, practical guide to the 21st-century newsroom, equipping journalists with the skills needed to work expertly, accurately, and efficiently across multiple media platforms. Emphasizing the importance of verification and authentication, the book shows how journalists adapt traditional practices of information-gathering, observation, interviewing, and newswriting for online publications. The text includes comprehensive coverage of key digital and multimedia competencies - capturing multimedia content, "doing" data journalism, mobile reporting, working in teams, participating with global audiences, and building a personal brand. Features developed exclusively for this book include innovative visuals showing the multimedia news structures and workflows used in modern newsrooms; interviews with prominent journalists about their experiences in contemporary journalism; a

glossary of up-to-date terms relevant to online journalism; and practical exercises and activities for classroom use, as well as additional downloadable online instructor materials. The New News provides excellent resources to help journalism students and early-career professionals succeed in today's digital networked news industry. The authors are donating all royalties to nonprofit LION's programs to support local online news publications. When children learn about something big and bad - even when they hear only bits and pieces - their brains get busy trying to make sense of it. Where did it happen? Why did it happen? And especially, will it happen again? Something Bad Happened guides children ages 6 to 12 and the adults who care about them through tough conversations about national and international tragedies. The non-specific term "bad thing" is used throughout, keeping this a flexible tool, and so children are never inadvertently exposed to events their parents have chosen not to share. Fear, sadness and uncertainty about the "bad thing" all are normalized, and immediately usable coping tools provided. For children and parents to read together, this one-of-a-kind resource by child psychologist and best-selling author Dawn Huebner provides comfort, support and next steps for children learning about troubling world events. "Making News: The Ultimate Guide to Handling the Media" is a vital media training resource for executives, leaders and spokespeople. Making News draws on Chris Urquhart's vast experience as a journalist and media trainer to help give you the confidence you need to shine as a spokesperson. Making News helps you understand how journalists work, learn about different styles of interviews, set goals and choose key messages, cope with difficult questions, improve delivery and presentation and get strategies to remain calm and relaxed. The book covers preparation for television, radio, print and online interviews, and includes an easy, five-step plan to prepare for any media interview. Written for activists, nonprofit organizations, or any concerned citizen, Making the News explains how to combine creativity with nuts-and-bolts media skills to score news coverage for important issues or nonprofit causes If you think it's time for a change, then News for a Change is the book for you."--BOOK

JACKET. Soon to be a Major Motion Picture National Book Award Finalist—Fiction In the aftermath of the Civil War, an aging itinerant news reader agrees to transport a young captive of the Kiowa back to her people in this exquisitely rendered, morally complex, multilayered novel of historical fiction from the author of *Enemy Women* that explores the boundaries of family, responsibility, honor, and trust. In the wake of the Civil War, Captain Jefferson Kyle Kidd travels through northern Texas, giving live readings from newspapers to paying audiences hungry for news of the world. An elderly widower who has lived through three wars and fought in two of them, the captain enjoys his rootless, solitary existence. In Wichita Falls, he is offered a \$50 gold piece to deliver a young orphan to her relatives in San Antonio. Four years earlier, a band of Kiowa raiders killed Johanna's parents and sister; sparing the little girl, they raised her as one of their own. Recently rescued by the U.S. army, the ten-year-old has once again been torn away from the only home she knows. Their 400-mile journey south through unsettled territory and unforgiving terrain proves difficult and at times dangerous. Johanna has forgotten the English language, tries to escape at every opportunity, throws away her shoes, and refuses to act "civilized." Yet as the miles pass, the two lonely survivors tentatively begin to trust each other, forming a bond that marks the difference between life and death in this treacherous land. Arriving in San Antonio, the reunion is neither happy nor welcome. The captain must hand Johanna over to an aunt and uncle she does not remember—strangers who regard her as an unwanted burden. A respectable man, Captain Kidd is faced with a terrible choice: abandon the girl to her fate or become—in the eyes of the law—a kidnapper himself.
